

Athelstone Recreation Reserve

CLIENT
Campbelltown City Council

ARCHITECT
Ausco Modular

LOCATION
Athelstone, SA

The Athelstone Recreation Reserve, a hub for community activities and sports, embarked on a significant project aimed at enhancing its facilities. In collaboration with Campbelltown City Council, the project involved the construction of modular facilities to cater to the evolving needs of the local community.

The facilities provided display a diverse range of amenities designed to serve the community effectively. These include a social area catering to a large gathering, equipped with operable doors for enhanced flexibility. The addition of a commercial bar, kitchen and storage rooms, administration facilities, public toilets, and flexible referee and changeroom options ensures a versatile and modern environment for diverse community needs.
