

PROJECT NAME

 CLIENT
BMD Group

 LOCATION
Greenvale, VIC

 ARCHITECT
Ausco Modular

 NUMBER OF MODULES
37 buildings + 26 Coverflex

BMD Group, engaged in a significant project extending into 2025, collaborated with Ausco to create a safe, comfortable, and sustainable on-site environment for their employees.

Ausco supplied a range of solutions for BMD including ample office space for administrative functions, 2 12x12 lunchrooms providing dedicated areas for employees to relax and have meals, a first aid room, adequate restroom facilities as well as 26 Coverflex Modules.

Ausco's innovative Coverflex, a modular covered walkway solution, emerged as the ideal choice for enhancing on-site safety and practicality. This versatile structure provides shelter and protection, regardless of weather conditions.

Understanding the significance of BMD's ESG considerations, Ausco offered its ECO building upgrade. This solution aligns with BMD Group's commitment to sustainability, offering energy-efficient enhancements and additional features.

Ausco's commitment to innovation and sustainability has proven valuable for BMD Group. This collaboration exemplifies how thoughtful solutions can enhance not only the functionality of a construction site but also its overall sustainability and worker satisfaction.
